

Floodplain Management Elevation Certificates

The properties identified below have Federal Emergency Management Agency, National Flood Insurance Program Elevation Certificates on file with the City of Los Altos. A Copy of an Elevation Certificate will be made available by request and treated as a public information request per City Policy. Please be aware that additional historical Elevation Certificates may be available for specific properties and are not listed above, but available as part of the Building Permit record. For inquiries for specific building permit records, please submit a public information request to the City.

Last Revised: October 1, 2021
